

Environmental Policy

We will commit to:

- Protecting the environment and preventing pollution;
- Recognising and complying with all compliance obligations applicable to us, including local, national, and international legislation and regulations;
- Continually improving our EMS to ensure that we enhance our environmental performance;
- Understanding, monitoring, measuring, and communicating our carbon footprint, environmental impacts, and climate risk to inform our actions and to track and improve our performance;
- Reducing our emissions (using 2019/20 as a baseline) in line with science-based targets aligned to the international goal of limiting temperature rises to 1.5°C;
- Embedding and measuring performance against ambitious environmental sustainability targets in our decision-making, our capital investment and across our procurement, operations, and management of our sites;
- Reducing our use of non-renewable resources, minimising waste, and increasing the use of recycled, renewable, and environmentally responsible resources and materials across all our operations;
- Ensuring that our corporate partnerships and supply chain reflect our responsibility to reduce environmental impact and engaging with our partners to drive positive action on climate change;
- Ensuring that our funds are invested responsibly. We will not invest in companies whose operations conflict with, or detract from, our objectives; and
- Engaging and collaborating on environmental issues in the work that we undertake to help people understand, value, care for and enjoy the historic and natural environment in our trust.
